ISSUE No. 2

IMMIGRANT CRIME:

WHITE WOMEN ARE MUGGERS' MAIN TARGET

NATIONAL FRONT
53, Greencroft Towers,
Felling, Gateshead 10.

A REPORT issued in April reveals that the vicious race war being waged by gangs of Black youths against the White Community in London has become even more barbaric. Police figures indicate that marauding savages are seeking out White women to assault and rob.

Even our White Old Folk are not safe. Case after case indicates that the Muggers are just as happy to batter to the ground the elderly and frail for the sake of their pensions as they are to snatch the handbags of young secretaries on Underground stations.

The Scotland Yard crime report caused howls of protest from Mark Bonham-Carter of the Community Relations Commission and other multi-racialist traitors who demanded that the Police should suppress details of Immigrant crime "in the interests of good race relations".

The facts in the report showed quite clearly that "good race relations" are a figment of Bonham-Carter's imagination, for it declared:

"During the last year, of the 103,252 people arrested for indictable crime, 12,640 – 12 per cent – were classified as apparently of West Indian or African origin. Since the estimated Black population is 4.3 per cent, a disproportionate involvement is indicated.

"In fact, the involvement of Black people in the arrest figures is disproportionate in respect of every main category of crime."

89% OF VICTIMS ARE WHITE

The report goes on to show that during 1974 there was increased concern about the degree of involvement by Black youths in robberies and theft-from-the-person (mugging) in some areas of London.

An internal study by the Metropolitan Police's Community Relations branch of mugging in the Brixton sub-division showed that in the first nine months of 1974, **79 per cent of robberies were carried out by people described by their victims as "Black", "Coloured" or "West Indian".**

The study showed that 84 per cent of the victims were White people.

In cases of theft-from-the-person (mugging) 83 per cent of the criminals were described by victims as "Black", "Coloured" or "West Indian", and that 89 per cent of the victims were White.

Even more horrific – SEVENTY PER CENT OF THE VICTIMS OF MUGGING WERE WOMEN, AND ONE FIFTH OF THESE WERE OLDER THAN 60 YEARS OF AGE!

In bringing their report out the Police knew that multi-racialists would seek to discredit the accuracy of the figures by alleging that they were the product of "Police discrimination".

This is the reason why the evaluation of the extent of involvement of Black people in street crime contained in the report **relies upon the evidence of the victims and not on Police arrest figures.**

Having produced unbiased figures in this way, the report went on to show that Police arrest figures were not biased as they compared almost exactly with the figures arrived at as a result of information supplied by victims.

"For example", said the report, "during the first nine months of 1974, on Brixton Police sub-division, **of the people arrested for robbery, 62 per cent were Blacks. Of those arrested for theft-from-the-person, 82 per cent were Black.**"

"Accepting that arrest figures for robbery and other violent thefts reasonably reflect the extent of Black involvement as perceived by victims, it is not unreasonable to assume that arrest figures for other crimes also provide some guide to the actual degree of Black involvement in those crimes."

MUGGING MURDER

Shortly after this shock report from the Police was issued, and White racial traitors and Race Relations Board do-gooders were demanding that the Police should hush up the facts about the Black race-war, Londoners were shocked by a horrible mugging in Willesden, North London.

A middle-aged loan-club collector got out of a friend's car to deposit funds in a Bank night safe. He was spotted by a gang of young Blacks, attacked, and kicked to death. The savages ran off laughing. Their haul? £8!

Only **ONE** national newspaper considered that the kicking to death of an innocent man in a London High Street for £8 was "newsworthy".

Later, when the Police appealed for witnesses to the murder via the *Police Five* T.V. spot, left-wing groups and community relations workers complained that the appeal was "Fascist National Front propaganda", simply because the murderers had been correctly described as "Black youths"!

GOVERNMENT ANTI-WHITE

Why are the social workers, the community relations workers, media pundits and trendy-lefty-politicians of all the main political parties in Parliament so hysterical about these factual Police reports?

Because they know in their hearts that their "multi-racial society" experiment has **FAILED.**

Because, like all tyrants who know that their days are numbered, they hope to postpone the final day of reckoning by acts of suppression – against truth, and those who tell the truth.

The National Front will not shut up. *National Front News* will increasingly urge the British people to WAKE UP, STAND UP – AND FIGHT.

Red rioters fail to stop NF march

IN a pre-planned and well co-ordinated exercise, 2,000 Communists and Coloured Immigrants participated in a set-piece anti-British riot on the streets of Bradford on Saturday, 24th April.

So far as the average Communist or Immigrant hooligan was concerned, the sole objective of the rioting was to try and stop more than 1,000 members of the National Front from marching through the city in support of the 22 NF candidates nominated in the local Metropolitan Council elections.

But behind-the-scenes a sinister alliance of Labour Party Zionists, Asian Immigrant community leaders and leaders of the various communist factions had decided that the long-term political function of the carefully orchestrated violence was:–

To intimidate local police authorities and the Home Office into taking the soft option of banning National Front activities so as to avoid having to cope with ultra-violence from the Red Mob.

COMMUNIST VIOLENCE

Such tactics have nothing to do with "youthful idealism". The name of the game is blackmail – crude Fascism, mobs and red Flag, and hiding behind an "anti-Fascist" disguise!

The Red rioters failed to halt the NF column from marching through the city to a school where an enthusiastic "Stop Coloured Immigration – Start Repatriation" rally was held and £620 collected for NF funds.

On the way to the hall, Police horses continuously had to ride through mobs of Communist and Immigrant hooligans who tried to block the NF march.

A strong detachment of NF stewards at the front of the column regularly had to give battle. Five were arrested and several were injured.

As the NF column got nearer its destination the cowardly Communist rioters grew tired of making direct physical attacks on NF stewards.

Instead they hurled bricks and bottles into the middle of the column. Some missiles found their mark – hitting women and old folk, who marched on as bravely as the young lads.

The worst spate of rioting took place **after** the NF members had gone into the hall for their rally. The Reds and Immigrants, with

EDITORIAL

Complete sell-out

THE number-one issue of *National Front News*, which came out at the end of March, was completely sold out within a few days. Reports came in from NF branches all over the country of the popular reception given it by members. One comment was typical: "All the good qualities of *Britain First* but without the left-wing stuff."

Out of caution we had ordered 12,000 copies as a first run for the new paper. We need not have worried. We could have easily sold at least double that number. This time we have ordered a much larger quantity and there should be enough to go round.

National Front members should not forget that this is **their** paper – in a way that no other paper has been before. We want their help, not only in selling it, but also in producing it. Send us any good press cuttings that you have which you think may be of use to us. Particularly, send us **local** press news on important things that might have been hushed up by the national press. Send us any good photographs you come across. It all helps.

And don't forget, if you think there is any way we can improve our paper while not adding to the cost of printing please let us know.

An irrelevant budget

MR. DENIS HEALEY has won the approval of both The City and much of the Tory press for his budgetary limit of 3 per-cent on wage-rises during 1976-77. But in fact this limit is pretty well totally irrelevant to the task of fighting inflation.

All the 3 per-cent limit is going to do is keep wages down to a completely unrealistic level in relation to the prices that are going to continue to soar as long as the real cause of inflation remains untackled.

The real cause is the creation of money by borrowing. The word 'borrowing' is not even strictly accurate, for when you borrow money normally you just arrange the transfer of money from the lender to yourself. The way that most money is 'borrowed' today is for the banks to make a ledger entry (or whatever the computer equivalent is) simply writing into existence huge amounts that a moment previously did not exist. The banks are 'lending' money to the government and to local authorities in this way, and in doing so they are doing no more than practising in a sophisticated way the same thing as the forger who prints banknotes on a machine in his cellar.

This money has to be paid back to the bankers – plus the interest, which today, as we all know, is huge. It is this burden of debt with interest (that is not even legitimate debt) written into the price of goods and services that causes inflation, nothing else.

A 3 per-cent wage-rise limit will, so long as this system exists, merely impoverish the community to an intolerable extent – while doing whatever to bring inflation to an end.

Such a limit is not sensible economics; it is a recipe for revolution. If revolution is what Mr. Healey wants, he is certainly going the right way about it.

PUSH START

THIS hilarious little story comes from *Taxi*, the newspaper of the taxi trade:–

A driver was stuck outside an East London taxi garage with a flat battery. Seeing the smiling face of a young black mechanic looking at him, he decided to ask for a push-start.

"O.K. man," said the obliging West Indian, "you wait dere and I go and get a taxee."

"That's very kind of you," said the cabby, "but you'll have to reach about 30 m.p.h. because I've got an automatic."

Off went the young mechanic to reappear a couple of minutes later driving a cab. He waved to the cabby and for some unknown reason roared off in the opposite direction.

"Where the bloody hell has he gone?" thought the puzzled cabby, A minute later he found out. The young mechanic had whizzed round the block to get up speed and then – crunch! He proceeded to smash into the back of the broken down cab. Yes, you've guessed it, at 30 m.p.h.!

OBITUARY

WE are very sad to record the death of a staunch NF activist, Mrs. Rose Weatherall. Mrs. Weatherall was callously murdered by a maniac occupying a flat in the house where she lived. The murder apparently arose out of some minor domestic dispute and had no political motive.

Mrs. Weatherall was 52 and had recently put in many hours of voluntary work in NF Head Office.

DISUNITED EUROPE

MUCH TALK BUT NO ACTION
Common Market leaders argue the toss but achieve nothing.

WHEN the politicians conned Britain into the Common Market they painted beautiful pictures of a great era of co-operation between European countries. "We can solve our problems so much better together than we can as separate nations," they crooned enticingly.

Now the real truth is coming to light. Europe, despite all the promises, is hopelessly divided. The European nations can hardly agree on a thing. Just let's look at a few examples:

Economic integration. All progress towards monetary union has stopped. The differences in economic well-being between the Market countries is now far greater than it was in the 1960s. The French have withdrawn the Franc from the EEC joint currency float after a row with the Germans about how the float was to be shaped.

Farm policy. The Common Agricultural Policy, which still accounts for three-quarters of the EEC budget, has still not been reformed because, although almost everybody acknowledges that it must be, no-one can agree on how. Mr. Pierre Lardinois the agricultural commissioner, has said that without major changes the CAP could be dead by the end of this year. Mr. Lardinois has now resigned in despair.

Foreign policy. The community is no nearer a common approach to the world. The British and the Germans have tried to co-ordinate the policies of the Nine but the French have refused to help.

Energy policy. The energy ministers have only met once this year, and then they agreed on nothing.

Political organisation. The Market countries are all rowing about the distribution of seats for direct elections to the EEC parliament. Plans produced by the Belgian Prime Minister, Mr. Leo Tindemans, for closer political integration were supported by the Germans but strongly opposed by the British and the French. The Common Market Commission in Brussels is now becoming demoralised, and many commissioners have long ago given up taking any new initiatives because of constant obstruction from the Council of Ministers.

Defence. There is no sign whatever of any common thinking on European defence in the event of the threatened American withdrawal from the Continent. Despite Western Europe's larger population and greater industrial weight, it would be totally incapable of resisting an attack by the Warsaw Pact countries without American help.

All the predictions which our party made about the Common Market are coming true. The European nations are not achieving greater strength and unity as a result of the surrender of sovereignty that they are having to make. They are as divided as ever but without each individual nation being free to take its own measures to solve its own special problems. Britain should get out of the Market without further ado and then set about mending its broken links with the countries who are its real friends and with whom history has proved it can unite to real practical mutual advantage – the white countries of the British Commonwealth.

Message from Rhodesia

This letter was recently received by some people in Britain from their son and daughter-in-law in Rhodesia. We reprint it as a matter of interest to our readers.

Dear Mum and Dad,

No doubt you are worried about the situation in Rhodesia, particularly in view of all the sensational headlines and horrific articles which appear in the Press. The psychological war being waged against Rhodesia through many of the news media of the world has escalated to such proportions of misrepresentation that many observers outside this country find it difficult to separate fact from fiction.

Daily examples of deliberate distortions and half truths are carried in the headlines of the world's newspapers and radio and television networks. The initial feelings of unease which assailed the people of Rhodesia and their friends abroad have now turned to anger at the perpetrators of these attempts to undermine the morale of our country and its supporters.

Scores of journalists from all over the world have descended upon Rhodesia and believe it or not, are hard put to find enough to do or see. There are no massacres and bloodbaths, there are no massive ~~terroist~~ force build-ups, there is no panic or hysteria, and there are no queues of people leaving the country. Many of the photographs and Press reports which have been sent to us by our friends bear no relationship whatever to the real situation in Rhodesia. In fact, some of the photographs and film were not even taken in Rhodesia!

Instead, these journalists find themselves in a country where they can travel safely with no fears of bomb explosions. They can walk through the cities at night with no fear of being mugged. They can spend a day in the country and watch the soil being tilled and the crops gathered. They can go to restaurants or a nightclub and pay less for better food than in many other countries in the world and they do not find sandbags or steel shutters over the windows of their chosen venue, nor are they searched before entering.

They find black and white Rhodesians mingling peacefully together and carrying on with their day to day jobs as they have done for many years. They find that there are sporting events, theatres, cinemas, horse racing and many other facets of entertainment available to them as they would elsewhere. They do see troops coming and going from their barracks, because there is an anti-terrorist war being waged on our borders, and there are shortages – of things like razor blades, black pepper, light bulbs and the more exotic foods and toiletries.

And, some are disappointed, because every journalist lives on the hopes of scooping a disaster. And so, stories are made up – and elaborated upon to make them more sensational at editorial desks thousands of miles away. What much of the world Press does not wish to print are the true facts about Rhodesia. That she has weathered the last 10 years so well, in terms of internal peace, productivity, growth and racial harmony, despite the effects of boycotts and sanctions.

We do not deny that Rhodesians are going through difficult times – difficult but not drastic, and compared with most countries in the world today Rhodesians have much to be thankful for.

Migrant doctor injects poison "by mistake"

A 21 YEAR-OLD Wakefield woman died after an Asian doctor had injected her with a "highly toxic" fluid by mistake, an inquest was told recently.

Mrs. Margaret Lunn of Wakefield was taken to hospital suffering from headaches, and should have been injected with a harmless dye that showed up haemorrhages under X-ray.

But Dr. Ahmed Rudwan injected her with a poisonous antiseptic – centrimede – by mistake. She became seriously ill minutes later and was placed on a ventilator to help her breathing. Despite attempts to dilute the poison, she died soon afterwards.

When, of course, any opposition to immigration is voiced, the politicians say to us: "But how would our hospitals run without them?"

Asian families jump London housing queue

NINETY-ONE Asian families have jumped ahead of thousands of British families on council house waiting lists in the London boroughs of Wandsworth and Hillingdon.

They are just a fraction of the thousands of Asian immigrants pouring into Britain who have been given immediate priority in housing over homeless British families by Tory and Labour councils.

In Wandsworth, ratepayers have had to pay no less than £600,000 in the last ten months to house 30 immigrant families. The borough has 17,000 local people on its list waiting to be housed – but they don't seem to matter.

These shocking facts emerged after Wandsworth Council admitted that a penniless Kenyan Asian and his family of eight were given their own home within 13 days of arriving in Britain. In addition to a new home, Wandsworth Council provided Babubhai Patel with cash payments from social security, new furniture and clothing, special hospital treatment for his wife and schooling for six of his seven children. Heathrow Airport Health Control stated that his wife's admission to Britain was undesirable on medical grounds.

BABUBHAI PATEL
Still not satisfied

This disgraceful betrayal of homeless British families is just the tip of the iceberg. In Hillingdon in the past ten months, 61 immigrant families have been housed ahead of British families at a cost of "many, many thousands of pounds", according to one councillor.

Mr Terry Dicks, a Tory Councillor, said: "The immigrants get everything, beds, bedding – every item of household furniture they need is given to them".

This shows exactly how much the established parties care about the plight of Britain's homeless. They provide immediate accommodation for droves of East African Asiatics treasonably given British citizenship by the Home Office merely because they possess a passport.

In the case of Mr Patel, he simply used the last of his money to get a taxi from Heathrow Airport to Wandsworth Council's Homeless Family Unit, where he was provided with a home in a matter of days.

And he still isn't satisfied. The house is not near enough to the hospital taking care of his wife, he told the *Daily Mail*. "Perhaps in two or three months the council will get us a proper place."

Race war looms in country towns

THE prospect of race warfare has spread from the immigrant-infested urban centres of Britain to our country towns and rural areas.

In November last year, *Spearhead* magazine reported a race riot in the quiet West Country town of Trowbridge, Wiltshire, which involved 130 youths. Two policemen were injured and there were ten arrests. The riot was a full-scale battle needing police dog-handlers and extra police re-enforcements from nearby Melksham and Chippenham to contain the violence.

The battle was the culmination of mounting racial friction in the town, and was the subject of a sinister cover-up by the national press.

In Ipswich recently an inter-racial gang battle erupted on Priory Heath Estate, with youths throwing bottles and wielding knives. 24 youths and men appeared at Ipswich Crown Court charged with rioting, unlawful assembly, affray and carrying offensive weapons.

Despite the fact that the riot was between gangs of black youths and local white residents, Mr Anthony Willis, defending five of the youths charged, declared in court: "This was not a race riot. I am anxious it should be underlined".

FRIENDLY

He went on: "Although the groups divided along racial lines, it was not a racial conflict". Work that one out! Then came the usual liberal clap-trap to cover up the issue of multi-racial violence. Dense housing conditions, said Mr Willis, were partly to blame for the violence. Many members of the white gang were friendly with black people, he said.

With gangs "divided along racial lines" and brandishing broken bottles and knives – it certainly looks like it!

One terrified woman locked herself in a shop while the opposing gangs indicated their friendly, unprejudiced attitudes by hurling milk bottles at one another stolen from outside houses and shops. "Residents feared for their safety and property," it was stated in court.

This was yet another outbreak of racial violence covered up by the national press.

Meanwhile, racial violence is on the point of erupting in the quiet country towns of Bognor Regis, Chichester, Midhurst and Worthing in Sussex.

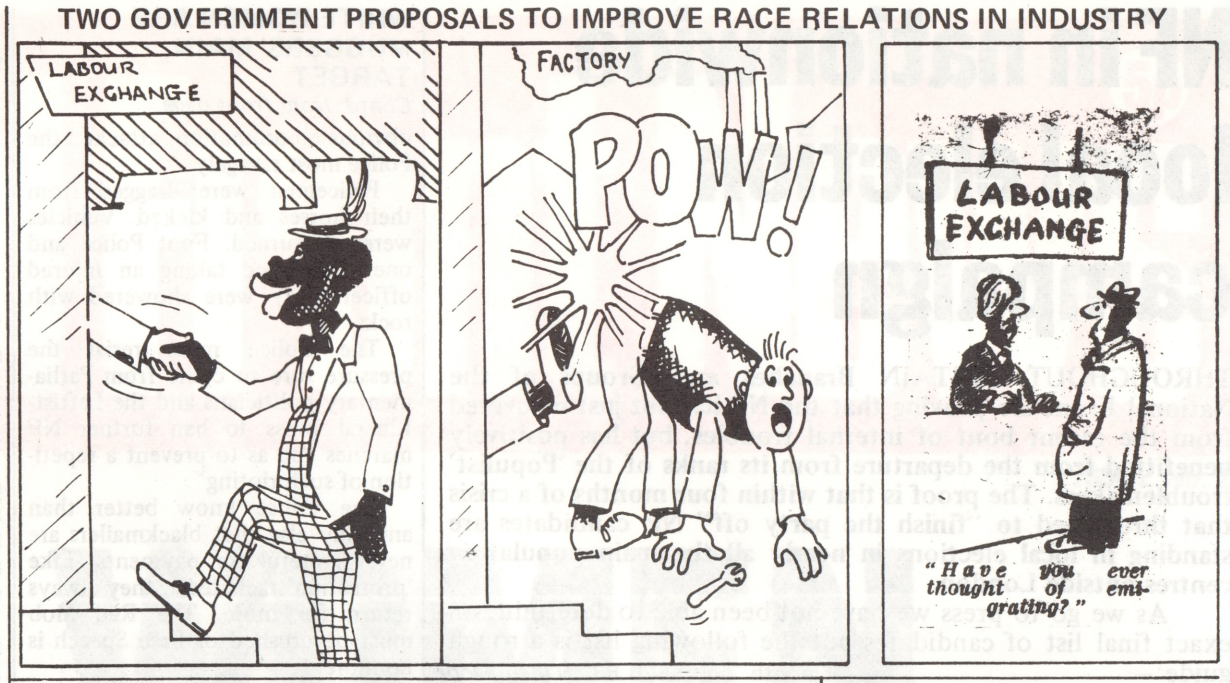
Asian "Community Relations Officer", David Asvat, recently admitted that these towns were "potential racial flashpoints", and that West Sussex County Council was "trying to brush this under the carpet".

He stated: "Serious situations could develop in those areas with which the county council may well be unable to cope. There could easily be outbreaks of violence between black and white youths".

Mr Asvat declared that the quiet Sussex town of Crawley was another danger area. Already there are more than 3000 coloured immigrants in Crawley.

If this is the kind of thing that is happening, or on the verge of happening in places like Trowbridge, Ipswich, Chichester and Worthing, then sooner or later London, Birmingham and Bradford are going to explode with racial violence on an unprecedented scale. In the armies of sullen, resentful and jobless young blacks to be seen on the streets of our cities, one side is already gathering.

TWO GOVERNMENT PROPOSALS TO IMPROVE RACE RELATIONS IN INDUSTRY



UGANDAN ASIANS GRAB £150,000 MANSION

A UGANDAN Asian family of 14 is refusing to move out of a £150,000 mock-Tudor mansion in Romford Essex – and preventing a plan to house more than 70 British old folk in a new development on the site.

The Asian family was given the luxury, six-bedroomed mansion by Havering Council after arriving as 'refugees' from Uganda. The family have paid only £12 rent a week for the past three years, and they like their palatial home so much now that they are refusing to leave. Meanwhile it costs local ratepayers £100 a week in loan interest on the property, and a million pound housing development which would give homes to 70 old people in the district is being held up.

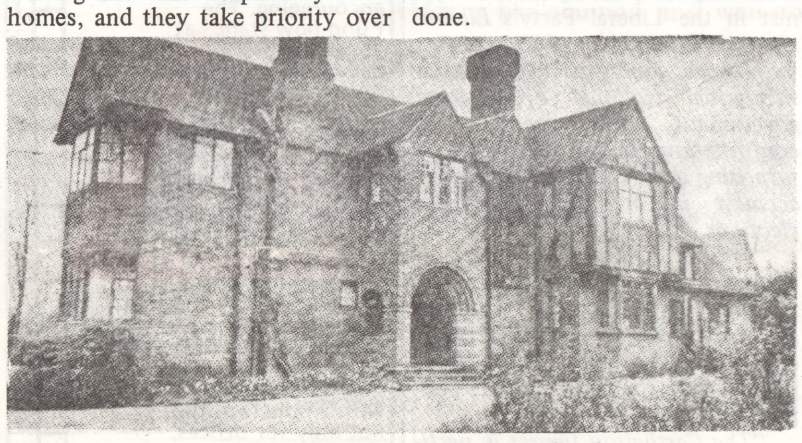
The effrontery of these aliens is truly amazing. They have actually turned down several offers of alternative accommodation – including one of a pair of houses together and another on the opposite side of the road!

Housing Committee chairman Mr Bert James said: "We have several hundred old people on the waiting list who desperately need homes, and they take priority over this Asian family." He estimated that the Council has subsidised the Asians to the tune of £15,000 since they moved in to the mansion. "They knew very well it was not a permanent arrangement," he said.

As far as we are concerned, the Council should never have got into this ridiculous position at all. It is no good whining now about the old people who cannot be housed because of the Asians' occupation of the property. What about the old people who needed housing when the Asians were given the mansion in the first place?

Our old folk should be given priority, not these Asian hordes, who should never have been let into the country at all let alone given a Tudor mansion in acres of ground to strut around in.

Why weren't our old people given the property? That's what the National Front would have done.



White old folks homeless while Asians live here.

Black bites nose off man who helped policeman

A COURAGEOUS Islington man had his nose bitten off after he had gone to the aid of a young policeman who was being beaten up by two Blacks.

The Blacks were said in court to have "gone berserk" and were kicking the officer who was helpless on the ground.

The severely injured man, Edward Gorman, was rushed to St. Pancras Hospital for an emergency operation to have a piece of the nose stitched back on his face. But because of the time lapse the graft was not successful, and the man is likely to be horribly scarred for life.

After a five-day trial at Inner London Crown Court, one of the Blacks, Paul Onuma, was jailed for two years for inflicting grievous bodily harm on Mr. Gorman. Another Negro, Patrick Egbuche, was acquitted of assaulting the policeman, P.C. David Powell, and was discharged.

The policeman had been violently attacked after he had questioned the Blacks in their car. One of the attackers, Onuma, bit him on the chest causing a deep wound, and then bit the nose off Mr. Gorman, who had rushed to the policeman's aid.

No doubt our liberals and lefties will explain to us that this further demonstration of multi-racial harmony, transposed from the jungle, was not typical but the result of "poor housing" or some such nonsense.

BLACK POWER MANIACS ON COLLEGE RAMPAGE

A YOUNG British student at West Bromwich College of Commerce and Technology was offered police protection recently as racial tension mounted between black and white students.

The racial flare-up was the result of an attempt by white students to regain control of the Students Union, after arrogant "Black Power" maniac Sebastian Godwin had been elected Union President by a majority of 5 votes.

Godwin's presidency of the Union saw an increase in disruptive Black Power activities and an increasingly arrogant attitude on the part of black students to the rulings of the white staff, who were abused and physically threatened. Black and white students separated into groups and fights broke out. The College rapidly became disfigured by tension and violence. The *Sunday Telegraph* described the situation as "the first sign of the ferment bubbling beneath the surface of Birmingham's black life".

White students soon got fed up with the antics of the Black Power maniacs and their supporters among the extreme left-wing, and voted Godwin out of the Union leadership.

Since then the situation has worsened, and white students' leader Nigel Backhurst, who organised the opposition, has been threatened with physical violence.

"I shall not be returning to the College for the time being", he said. "I have been told by West Indian students that I shall be 'got at' if I do."

Mr Backhurst was forced to bolt himself in his council home and answer the door on a chain. He said he was taking extra precautions because a gang of blacks had called at his home at 3 o'clock in the morning. "I cannot afford to take risks", he explained. "The police have told me that my safety is in very real danger and they have offered me protection. Several of my supporters have also been threatened."

"The situation has deteriorated drastically at the College over the past few months. Black and white students . . . form separate groups around the college and there is real tension. Lecturers have been abused and sworn at, threats have been made and classes disrupted."

This is one more example of multi-racial Britain in 1976. And the college's racial troubles are just part of the seething atmosphere of violence in Birmingham where, as reported in the *Sunday Telegraph*, black youths are carrying guns and sharpened kitchen knives up their sleeves.

Heaven help poor old Britain when the trouble really starts.

SEBASTIAN GODWIN
Arrogant "Black Power" maniac

NF in nationwide local election campaign

THROUGHOUT BRITAIN Branches and Groups of the National Front are proving that the NF has not just recovered from the recent bout of internal troubles, but has positively benefitted from the departure from its ranks of the 'Populist' troublemakers. The proof is that within four months of a crisis that threatened to "finish the party off" NF candidates are standing in local elections in nearly all the main population centres outside London.

As we go to press we have not been able to determine an exact final list of candidates but the following list is a rough guide:—

Lancashire: Blackpool, 18; Accrington, 3; Preston, 3, Rochdale, 3; Blackburn, 2; Bury, 1; Bolton, 1.

Cheshire: Hyde, 1.

Yorkshire: Bradford & Keighley, 22 Leeds 10.

Leicestershire: Leicester, 48; Loughborough, 3 Wigston, 2, Newbold Verdon, 1.

West Midlands: Birmingham, 14; Wolverhampton, 8 Warley, 5, West Bromwich, 6; Coventry, 6; Stoke-on-Trent, 2.

Beds & Herts: Luton, 1; Hemel Hempstead, 3; Watford 3.

Surrey: Spelthorne, 1; New Malden, 1.

Kent: Dartford, 3; Medway, 3; Thanet, 3.

West Country: Bristol, 9.

East Anglia: Norwich, 1.

The Number of NF local election candidates would have been very much higher had local elections been taking place in the Greater London Area, but there will be no municipal elections in the London area this year.

48 CANDIDATES IN LEICESTERSHIRE

High spot of the NF local election campaign is without doubt the magnificent effort being made by Leicester Branch. The Branch is fighting every available vacancy in the Leicester City Council elections with 48 candidates.

Latest news is that the Liberal Party is only able to nominate 8 candidates in Leicester this year.

According to Leicester Branch's excellent local bulletin, the NF has a chance of getting candidates elected in Evington, Belgrave, Charnwood, Latimer, Humberstone and The Abbey wards.

The whole operation being mounted in Leicester reflects great credit on all the candidates but especially on the Branch Committee: Mr. Anthony Reed-Herbert, Organiser; Mr. Jack Calver, Chairman; Mr. Graham Eustace, Secretary; Mr. William Newcombe, Treasurer; Miss Marilyn Taylor, Activities Organiser; and Mr. Alan Gresham, Press Officer.

22 CANDIDATES AT BRADFORD

Very good things are expected from the effort being put up by the combined effort of Bradford Branch and Keighley Branch, in the elections to Bradford Metropolitan Council. So far there are 22 candidates nominated.

Considerable public attention has been directed towards the NF campaign in Bradford on account of the excellent anti-Coloured Immigration documentary transmitted last month on the B.B.C. *Open Door* programme.

The programme was in the name of the British Campaign to Stop Immigration, the Chairman of which is former Bradford City Councillor Mr. Jim Merrick, who joined the NF at our St. George's Day rally in Bradford last year. Mr. Merrick is standing as an NF candidate in the Bradford More ward this year.

Other wards where good votes are predicted are University (!); Manningham, Wibsey, Heaton and Great Horton.

Among the candidates standing will be Mr. George and Mrs Margaret Wright, the husband and wife team which got the NF off the ground in nearby Keighley.

The T.V. programme, plus the fact that the NF is putting up more candidates than the Liberal Party, plus the fact that once again the NF made Bradford the venue for its second annual St. George's Day March and Rally on Saturday 24th April, has resulted in great interest in the NF in that city.

"NF CAN WIN" -- LIBERALS

It is no doubt the great efforts which the NF is making in local elections, which has caused a columnist in the Liberal Party's *Liberal News* (26th March) to declare:—

"I have annotated before quite substantial National Front local government votes and here is confirmation. It will not be at all surprising if they were to open their account in the May municipal elections.

"This is a depressing thing to report. I do not want to see the National Front emerge from the lunatic fringe to establish their credentials as a small, but serious, party of the far Right – but I fear it may happen.

"The Carshalton figures in particular suggest a real chance the National Front might make the grade. I do not want this to happen."

The National Directorate gives to all NF candidates wherever they are standing best wishes for success. We trust that candidates' **morale** is high – but we also trust they are adult enough politicians not to set their **hopes** so high that if success **in the form of election** does not come to them (or even any other NF candidate) **this year**, they will get dispirited and give up the ghost.

THESE LOCAL ELECTIONS ARE VERY IMPORTANT **BUT THEY DO NOT REPRESENT THE LAST BATTLE IN THE WAR TO SAVE OUR NATION!** HOWEVER WELL OR BADLY WE DO ON 6TH MAY, WE STILL HAVE A LONG AND HARD FIGHT AHEAD OF US!

WHITE WOMEN ARE MUGGERS' MAIN TARGET

Contd. from front page

obvious co-ordination, attacked the Police most savagely.

Policemen were dragged from their horses and kicked. Vehicles were overturned. Foot Police and one ambulance taking an injured officer away were showered with rocks.

The Police must resist the pressure sure to come from Parliamentary politicians and the Leftist-Liberal press to ban further NF marches "so as to prevent a repetition of such rioting".

The Police know better than anybody else that blackmailers are never grateful for payments. Like 'protection' racketeers, they always return for more. The Red Mob must be crushed or Free Speech is no more.

"Be reasonable, how can I grant you majority rule when there's only the two of us?"

NF Building Fund

£20,000

£1,000

Last month we announced the revival of the National Front Building Fund, and appealed to members and supporters to contribute. Already the result has been encouraging. The Fund now stands at £540.00, £40.00 having been received during the month. However, this is still a drop in the ocean compared with what we need to raise our target figure of £20,000. A really great effort must be made to raise more in the coming months.

The Building Fund has been launched so as to enable the NF to buy its own Headquarters building, with ample facilities, not only for offices, but for a club and printing works as well.

Mark your donations 'National Front Building Fund' and send them to: National Front, 91 Connaught Road, Teddington, Middlesex.

CALLING CANDIDATES

Would those NF members who have not been selected by Branches or Groups of the party to stand as candidates in the next General Election, but who wish to be considered as candidates, please inform NF Head Office in writing, supplying their personal details.

JOHN TYNDALL TO VISIT RHODESIA

THE National Front held a most successful rally in support of Rhodesia at the Conway Hall, Red Lion Square, London, last Tuesday, 20th April.

More than 400 people were present, and the promised mass mobilisation by the International Socialists was a flop . . . barely more than 60 Reds turned up to scream obscenities.

It was revealed during the meeting (at which more than £630 was collected) that the Chairman of the NF National Directorate, Mr. John Tyndall, had been invited to visit Rhodesia later this year. His travel costs would in large part be met by individuals and organisations in Rhodesia and South Africa.

During the meeting Mr. Tyndall announced that the NF would not only be campaigning to provide Rhodesia moral and political support during the current crisis, but also *practical assistance*.

He said that large numbers of people in recent weeks (and not just known NF supporters) had been writing to NF Head Office indicating that if the "baloon went up" in Rhodesia they would wish to protect their kinfolk.

It was also announced during the meeting that a march and rally in support of White Civilisation in Rhodesia will be organised by the NF to take place at a date later in May or June.

WHAT WE STAND FOR

- The return of leadership and statesmanship to British affairs.
- A government that will put British interests first.
- British withdrawal from the European Common Market.
- Closer links with the White Commonwealth.
- Protection of British industry by the exclusion of foreign manufactured goods from Britain.
- A sane financial system which will give to the people the purchasing power to buy the goods they produce.
- The revival of British farming.
- British ownership and control of British industry and resources.
- A clamp-down on social security spongers and the restoration of the incentive to work.
- An end to immigration and a start to repatriation.
- British support of the Whites in Rhodesia and South Africa.
- An end to financial aid to black dictatorships.
- The strengthening of Britain's defences.
- Tougher treatment of criminals.
- The banning of the IRA, the death penalty for terrorists and firm support of the Loyalist majority in Northern Ireland.
- The elimination of Communism in Britain, in the mass media, in the factory and in the schoolroom.
